

# OSR, LPF, & Miscellaneous Valve Improvements

## Update: September 16, 2021

### September

Calleguas' Contractor will be conducting improvements to its system throughout parts of its service area. During the month of September, the Contractor will be mobilizing to its Reg. Sta. 6a facility on Santa Rosa Road to begin the installation of a new vault and flow control valve and piping. As part of the work, temporary traffic control will be installed to close a portion of the eastbound shoulder but no impacts to traffic is anticipated.

For your reference, the exhibit to the left shows the location of the planned work area.

### How to Get Updates or Provide Comments

Updates on construction activities will be available at [www.calleguas.com](http://www.calleguas.com).

If you have any questions or comments about this project please contact 805.579.7185.

### Thank You for Your Patience

Calleguas and its contractor will take all feasible steps to minimize construction impacts on the public. Calleguas appreciates the patience and understanding of local residents and businesses during the construction of this vital water supply project.

**This update is based on the best information available at the time of publication. Construction is dependent on many variables, including weather, and this information is therefore subject to change.**
